SICKLES WILLS SMALL FORTUNE

Three Grand Children Named as Heirs of Late Major General.

New York, May 22.—The will of the late Major General Daniel E. Sickles, which was read yesterday, named as his heirs three of his grandchildren, Daniel E. Sickles, ten years old, son of Stanton Sickles; Christopher Crackenhorpe, 13 years old, and Ida Blanche Crackenhorpe, 11 years old, children of Mrs. Ida Sickles Crackenhorpe, whose husband is connected with the British consular service.

A legacy of \$5000 was left to General Horatio King and smaller legacies to servants.

The value of the estate, according to the attorney, would be small. The only property owned by the general at the time of his death was his home in Lower Fifth avenue and against this were two mortgages. General Sickles inherited most of the large fortune left by his father, who at one time owned practically all of New Rochelle, N. Y. It was estimated at about \$5,000,000 but dwindled to nothing in unfortunate speculations.

SMOKE HINDERS RIVER STEAMERS

Sault Ste. Marie, Mich., May 22.—Steamers are moving slowly on account of heavy smoke which hangs over Lake Superior and St. Mary's river, from forest fires in Upper Peninsula. Last night fog added to the difficulties.

An immense moose which was driven from its Canadian home by forest fires was seen early today by watchmen at the St. Mary's river. It started to browse in the government park when newsboys gave chase.

COOKING AND HAPPINESS.

The conclusion of the Kansas Agricultural College that domestic science makes against divorce is based on figures that are not wide enough to be conclusive, but it is nevertheless in accord with reason. The figures are that eight hundred and twenty-nine girls have been graduated in twenty years and all have taken the course in domestic science. Four hundred and twenty-seven have married and only four have been divorced, two of the four remarrying their former husbands. There is now in many places a movement to make the domestic science course a part of the public school course. A woman is more likely to be interested in running her home if she knows how to run it. All of us are interested in doing those things which in early life we learn to do well. Practical usefulness makes us happy. Education ought not to be based on the needs of a small class. It should meet the fundamental needs of everybody. The girl born in ordinary circumstances who can take care of herself and her whole family when necessary has a feeling of confidence, self-respect and vigor that makes for mental and physical health and therefore for happiness.—Harper's Weekly.

OPPOSED PROBE TO SAVE STOCKHOLDERS

Attorney General McReynolds.

Attorney General McReynolds, whose opposition to the interstate commerce commission's probe of the New Haven railroad at first caused adverse criticism, has given an explanation of his attitude satisfactory to President Wilson. Mr. McReynolds says he opposed the present inquiry because it probably will prevent the consummation of plans which the department of justice has for the dissolution of the New Haven system in such a way as to save stockholders from the loss that he feels would result from a receivership.

Sports BASEBALL AND OTHER SPORTS AT THE FAIR GROUNDS

Baseball is to be one of the features of the Decoration day program given at the Intermountain fair grounds under the auspices of the Ogden Driving Club. That the game will be one of general interest and considerable merit is assured, the club officials having engaged the Becker Brewery team to oppose the nine from Huntsville. This baseball battle is to start at 1 o'clock.

The engagement of the A. F. of M. band for the entire afternoon has also been announced, a concert program to be given. In fact, the management for the day intends that every person in Ogden shall have an opportunity to enjoy himself on the holiday.

There will be races of more than usual interest as the entries indicate that practically all the horses will be represented among the horses for the five harness and one running race. Besides, a program of western sports is to include broncho busting, steer riding, pony races, relay races and chariot races. Novelty events and athletic sports are also to take a prominent place in the list of attractions.

SALT LAKE HIGH WINS RIFLE SHOOT

Washington, May 22.—The National Rifle association of America last night announced that the Salt Lake City, Utah, high school with 959 out of a possible 1000 points, had won the sixth annual rifle shooting competition for the team interscholastic championship of the United States. Fourteen schools from Maine to California, took part. Deering high school of Portland, Me., was second with 955 points and third place was won by the Morris high school of New York City with 951.

Other scores were:

Placer county high school of Auburn, Cal., 949; Curtis high school of New York City, 940; Iowa City high school (present holder of the Astor cup), 928.

The conditions of the match called for teams of five boys firing ten shots standing and ten shots prone at 50 on a decimal ring target with a one-half inch bull's eye, using .22 calibre rifles.

BILLY BURKE DEAD.

Lexington, Ky., May 21.—Word reached here today from Russia of the death of Billy Burke, 2:03 1/4, the third fastest trotting stallion in the world. Billy Burke was five-year-old and bred by J. D. Grover of Georgetown, Ky. He was sold to parties in Russia for a reputed price of \$40,000.

MURRAY DEFEATS M'COY.

New York, May 21.—Billy Murray of California, defeated Al McCoy of Brooklyn, who claims the middle-weight championship in a ten round bout tonight. The fight was a slug-fest with Murray forcing the fighting throughout.

Both men were badly punished, each having a closed right eye.

CUP DEFENDER IS INSPECTED

First View of Shamrock IV Permitted Through Courtesy of Sir Thomas Lipton.

Gosport, England, May 22.—Through the courtesy of Sir Thomas Lipton the first inspection was permitted yesterday of Shamrock IV in Camper and Nicholson's yard.

Charles E. Nicholson, designer of the yacht, which will try for the America's cup, assisted in laying bare some of her secrets, but refused to disclose all, notably her sail area.

The form of Shamrock's hull, however, makes it evident that the sail area will considerably exceed the 8000 and off square feet, which it is reported the Resolute will carry.

Yacht's Dimensions.

The following figures of the Shamrock's dimensions may be regarded as authoritative.

Length over all, 110 feet; length on water, 75 feet; greatest beam, 22 feet; draught without centerboard 13.9 feet. With the center board down its full extent, the draught will be 10 feet additional.

The upper lines of the boat are snubbed in, and the stern cut off. When the boat is heeled over in a stiff breeze this produces a sawed-off effect which detracts from her appearance, but designer Nicholson has paid no attention to beauty, his aim being speed, and that he seeks to obtain through the driving power of a big sail spread, rather than through the fineness of model for Shamrock IV is decidedly a big bodied boat.

The keel is fairly long and the rake of the stern post is not excessive. The position of the greatest breadth of beam is not forward of the mast, as recently stated. Like the Vanitie she will be fitted with a single head sail, hence her bowsprit out board will be very short. The challenger will be fitted with a hollow wooden mast, the height of which is one of the secrets the designer would not disclose, but it will certainly be great. The report that she will carry a Marconi top mast is erroneous.

A steel mast will also be provided as a substitute for the wooden mast, if the latter proves defective.

Metal Plate Centerboard.

The centerboard is a thin metal plate housed in a trunk coming well above the cabin floor.

"Frankly," said the designer, "the centerboard is purely experimental. I am not sure that it will prove of any advantage or that we will use it in the cup races, but by the American rules, under which the boat is built, any excess of draught over 13.9 feet is heavily penalized, while no penalty is attached to additional draught derived from a centerboard and as such additional draught may help in windward work, I have had recourse to a centerboard."

In design Shamrock IV differs markedly from all previous cup challengers, nor does she bear a close resemblance to any American craft. She certainly is original, if somewhat freakish.

After being tried out against the 22 meter Shamrock she will start across the Atlantic about July 20, according to present arrangements.

STANFORD TENNIS PLAYERS WIN

Chicago, May 21.—Lindley Murray and Herbert Hahn of the Leland Stanford Jr. university continued their triumphal tennis march across the nation today by defeating Alex Squire and Kenneth MacNeal of the University of Chicago, in the singles and doubles today. Murray defeated Squire in the singles, 6-3, 6-2, while Hahn won from MacNeal, 6-0, 6-0. The doubles went to the Californians, 6-3, 6-4.

YACHT RACE DATE SET.

San Francisco, May 22.—The first race under the auspices of the Pacific Interclub Yacht association for a trophy offered by Sir Thomas Lipton will take place in San Francisco bay, June 13, according to announcement today. The course of twenty-five miles originally proposed has been shortened to fourteen miles.

Yachts belonging to recognized clubs and measuring 31 and 33 feet racing length under the universal rule will be eligible.

TRAVIS AND KIRBY FAVORITES

Englewood, N. J., May 22.—W. J. Travis and Oswald Kirby were favorites today over the six golfers who survived the first two rounds of match play for the Metropolitan Amateur Golf championship. The gallery was pretty fairly divided in following the Kirby-Marston and Travis-Platt matches, which were in the upper and lower brackets of the draw respectively.

RUSSIA TO JOIN IN PROTECTING WALRUS

New York, May 22.—The Russian authorities are now ready to consider any agreement or convention for the protection of the walrus, according to Hoffman Nickerson of this city, who returned yesterday aboard the Vaterland from a trip to Russia as the representative of the New York Zoological society to suggest that a treaty be entered into with this country. Mr. Nickerson said his mission had been successful. One of the suggestions made to protect the walrus, which is the chief means of subsistence to any one else, Mr. Nickerson said, is to bar walrus tusks from the custom houses.

GREAT EVENTS AT OYSTER BAY

Most Important Political Conference Held Since Close of 1912. Campaign.

HARD FIGHTING AHEAD

Old Neighbors Welcome Home Jungle Explorer—Colonel Roosevelt Deeply Impressed.

Oyster Bay, N. Y., May 22.—The most important political conference in which Colonel Roosevelt has participated since the close of the campaign of 1912 was held at Sagamore Hill last night. It brought together representatives of New York, Pennsylvania and Ohio, in which states the colonel probably will do his hardest fighting this fall.

At the meeting were George W. Perkins of New York, chairman of the executive committee of the Progressive national committee; Walter Brown of Ohio, member of the national committee; Gifford Pinchot, Progressive candidate for United States senator from Pennsylvania; and E. A. Van Valkenburgh of Philadelphia, one of the foremost figures in the affairs of the party in that state.

It was decided definitely that the tentative plans for Colonel Roosevelt's campaign trip from the Atlantic to the Pacific should be adopted. This tour probably will take the former president into almost every state of the union.

Word Sent to Johnson.

This decision was reached when Colonel Roosevelt sent word to Governor Hiram Johnson of California, his running mate in 1912, that he was going to California next fall to stump the state for him in his campaign for re-election. After Colonel Roosevelt had talked with the Progressive leaders he dictated a statement which was interpreted as indicating that, in one state at least, he will carry the fight into the ranks of the Republican party by appealing to its members to ignore their past affiliations and go with the Progressives. His statement was made with particular reference to the situation in Pennsylvania, where Senator Penrose is opposed in his fight for re-election by Mr. Pinchot.

"Crises come up," Colonel Roosevelt said, "when it is the duty of all good citizens to sink party differences and stand up against flagrant wrongdoings in public life or against politics fatal to the welfare of the nation at home and to the honor of the nation abroad. All good citizens should on such occasions stand together without regard to past party differences."

"I have confidence in the integrity of the rank and file of the Republican party and that they will support Mr. Pinchot."

Old Neighbors Welcome Him.

The colonel's old neighbors welcomed him back from the jungles today.

and they did it in a way that made the former president strangely silent as he arose to face them.

Flags were everywhere and nailed to a telegraph pole was huge sign which read, "1916 and victory."

At last there came a shout and over the heads of the crowd could be seen a big white straw hat, waving back and forth. Everyone knew it was the colonel. The people crowded about and there was a wild scramble to shake hands with him. The village band played "This is the Life." After that was over the crowd grew silent and 600 school children began their song. As they came to the chorus, the crowd caught up the words "Home again, home again, from a foreign shore."

Colonel Roosevelt stood silent and grave of face while they sang.
